

Transcript of [COVID-19 Is an Ancient Virus](#)

A Message by the American mystic & sage Daniel Clay

It is important for you to realize, as much as you think that you are in a terrible state, you are in a state that is not only allowing your Earth and environment to rest; you are in a state that is allowing you to prepare for the future. Because, if you do not repair your environment, there are going to be more of these illnesses, as more ancient illnesses, that have not touched mankind for thousands of years, are again released by the accidents of deforestation, mining, and disruption of the environment.

It is not that these things have been brought to you by animals. It is that you have gone into ancient areas. There are forested areas now that you think have always been forested where civilizations have dwelt and died with viruses and bacteria that you have not seen since you have been looking in your recent scientific development.

Mankind has reached plateaus many times and fallen many times. You have the opportunity right now, as you prepare for this, to both work to stop disrupting your environment and to learn how to manage anything else you do accidentally release. Meanwhile, this was not a race's fault, a people's fault, a nation's fault, nor was it an animal's fault. It was just the result of human greed and folly.

And now, that greed and folly brings you a time of rest and recuperation. Get well. Be healed! And remember this. Death is an illusion. There is life after the life. Life is a continuum of every existence. Death is not a reality. And if you say, "Oh, but death is a reality," we tell you those that you would call dead have set aside the body and they are closer to the divine than you are at this moment.

You want help? Ask the living that you would call dead, for they are in the position to give you the help you need.

We leave your blessings and with peace.

Peace be with you.

Daniel Clay
